Fast Track Is the Wrong Track for Teamsters – Sign the Petition Today

Fast Track undermines the authority that we have entrusted to Congress to make sure that trade agreements with other nations are fair and in the best interests of working families – not corporations. If Fast Track is passed, job-killing trade deals like the Trans-Pacific

Partnership that have been negotiated largely in secret could become law by a simple “yes” or “no” vote, without the possibility of any amendments. Congress will not be able to change a single word of the agreement, no matter how bad the provisions may be!

Please help us tell Congress that Fast Track is the wrong track by signing the Teamster petition today. And please share the petition with your family, friends, neighbors, and coworkers.
